

# TRUE SKY: CUSTOMER HIGHLIGHT

## Resort and Property Developer

A DESTINATION REAL ESTATE DEVELOPMENT COMPANY WITH PROPERTIES ACROSS THE WORLD AND MULTIPLE COMPANY DATABASES IN THEIR ERP.

### INITIAL CHALLENGES

- Struggles consolidating data for reporting across multiple production databases
- Manual and tedious currency revaluation and edits
- Heavily reliant on project budgeting over multiple year time horizons
- Lack of quality reporting out of project/job cost module

### THE SOLUTION

- True Sky Financial and Project Models for budgeting and reforecasting
- Automatic integration of all company databases and required data from ERP without manual intervention or work required
- Alignment of different fiscal year calendars when performing consolidated reporting
- Automatic currency exchange rate calculations
- Robust project reporting to share across the organization
